CURRICULUM VITAE — TRAN THI BICH

Target Position: Backend Engineer
Contact: bich.tran.dev@example.com | (+84) 938-765-432 | Ho Chi Minh City, Vietnam
GitHub: github.com/tranthibich-mock

PROFESSIONAL SUMMARY

Dedicated Backend Software Engineer with 2.5 years of experience specializing in Java, Spring Boot, and relational database systems. Strong foundational background in Object-Oriented Programming (OOP), RESTful API design, and microservice architecture. Recently completed self-guided projects in Node.js and TypeScript, and actively eager to transition into cloud-native and serverless development environments.

TECHNICAL SKILLS

- **Programming Languages:** Java (8, 17 - proficient), SQL, JavaScript, TypeScript (basic to intermediate).
- **Backend Frameworks:** Spring Boot, Spring Data JPA, Spring Security, Express.js (basic).
- **Databases:** MySQL, PostgreSQL, Redis (Caching).
- **Tools & Environments:** Git, Docker, Postman, Maven, JUnit 5, Mockito, Linux.
- **Concepts:** RESTful APIs, MVC Architecture, Database Normalization, Microservices basics.
- *Note:* Seeking hands-on commercial experience in AWS Cloud services (Lambda, DynamoDB, SQS).

PROFESSIONAL EXPERIENCE

Java Backend Developer — E-Commerce Pioneer Co.
March 2022 – Present | Ho Chi Minh City

- Built and maintained order management and inventory REST APIs using Java 17 and Spring Boot microservices.
- Optimized slow SQL queries and created composite indexes in MySQL, improving API query response times by 30%.
- Integrated third-party payment gateways (VNPay, Momo) and implemented JWT-based authentication with Spring Security.
- Wrote automated unit tests with JUnit 5 and Mockito, achieving 78% code coverage on core business logic.
- Containerized Java backend services using Docker and managed container deployment on local testing environments.

Junior Web Developer — V-Tech Software
September 2021 – February 2022 | Ho Chi Minh City

- Collaborated in an Agile team to develop internal administration tools using Node.js, Express, and PostgreSQL.
- Handled bug fixes, API endpoint documentation using Swagger, and participated in sprint reviews.

EDUCATION

- **Bachelor of Science in Information Technology** — Ton Duc Thang University (TDTU)

Graduated in 2021 | Classification: Very Good (Khá-Gi■i)

NOTABLE PERSONAL PROJECTS

- **Task Management Serverless Demo:** A side project exploring AWS Lambda with Node.js and S3 file storage to learn cloud development basics.
