CURRICULUM VITAE — LE VAN CUONG

Target Role: Senior Frontend React Engineer
Contact: cuong.le.frontend@example.com | (+84) 912-888-999 | Da Nang / Remote, Vietnam
Portfolio: https://cuongle-portfolio-mock.dev | **GitHub:** github.com/cuongle-frontend-mock

PROFESSIONAL SUMMARY

Passionate Frontend Engineer with 3+ years of specialized experience engineering modern single-page applications (SPA) using React, TypeScript, and modern CSS architectures. Proven track record in building accessible, high-performance web applications with exceptional user experiences, dark/light theme systems, and responsive interfaces. Strong advocate for design systems and clean component design.

TECHNICAL SKILLS

- **Languages:** TypeScript (expert), JavaScript (ESNext), HTML5 Semantic.
- **Frontend Core:** React.js (v18, v19), React Hooks, Context API, React Router v6.
- **Styling & Design Systems:** Vanilla CSS, CSS Custom Properties (Design Tokens), Flexbox/CSS Grid, Responsive Design, CSS Animations & Transitions.
- **Tooling & Build:** Vite, Webpack, npm/yarn/pnpm, ESLint, Prettier.
- **API & State Management:** TanStack Query (React Query), Zustand, Axios, Fetch API, WebSocket.
- **Testing & Quality:** Vitest, React Testing Library, Cypress (E2E basics).

WORK EXPERIENCE

Frontend Engineer — NextGen SaaS Solutions
August 2022 – Present | Remote

- Spearheaded the frontend redesign of the core customer portal using React 18, Vite, and TypeScript, improving Google Lighthouse Performance score from 68 to 96.
- Architected a scalable design token system using native CSS Custom Properties, enabling instantaneous theme switching (Dark/Light mode) without external UI libraries.
- Implemented responsive side-by-side split screens and complex data tables with virtualized scrolling for smooth 60fps rendering of 5,000+ data rows.
- Integrated RESTful APIs with TanStack Query for background caching, optimistic UI updates, and error handling.
- Mentored 2 junior frontend engineers in TypeScript typing and React performance optimization techniques.

Frontend Developer — PixelCraft Studio
June 2021 – July 2022 | Da Nang

- Built pixel-perfect, responsive marketing websites and e-commerce storefronts using React and TypeScript.
- Designed interactive micro-animations and loading skeleton states, boosting user engagement metrics by 25%.
- Collaborated closely with UI/UX designers in Figma to translate designs into accessible, reusable React components.

EDUCATION

- **Bachelor of Engineering in Information Technology** — Danang University of Science and Technology (DUT)

Graduated in 2021 | GPA: 3.5 / 4.0
